

REMARKS

Claims remaining in the present patent application are Claims 1-26.

Examiner Interview

Applicants' representative conducted an Examiner Interview with Legal Instruments Examiner Williams to understand the items causing the amendment document to be non-compliant. Based on this conversation, it appears that page two of the response is missing, resulting in the "Claims" portion of the response beginning with Claim 4, and omitting Claims 1-3.

Applicants thank Examiner Williams for the Interview.

Response to Notice of Non-Compliant Amendment

Applicants herewith resubmit the response to the Official Action of March 29, 2005, originally mailed June 20, 2005, and respectfully request reconsideration of the above captioned patent application in light of the amendments and remarks presented therein.

CONCLUSION

Claims remaining in the present patent application are Claims 1-26.

The Examiner is invited to contact Applicants' undersigned representative if the Examiner believes such action would expedite resolution of the present Application.

Respectfully submitted,
